Approved.....	2	Lunch Price - Elementary.....	\$1.05
Approved with Merit.....	0	Lunch Price - Secondary.....	\$1.25
Approved with Warning.....	0	Pupil Transportation Program:	
Not Approved.....	0	Average Daily Ridership 2000-01	548
High School Diplomas Regular.....	58	District Owned Operation	
Other Completions*	0		

* Certificates of Completion issued by the district

** Limited English Proficient (LEP)

Superintendent's Highlights

On September 18th of this year the district will be asking the constituents to approve a \$6 million dollar bonding initiative. The district is looking to build a 6-7-8 grade middle school complex along with additions to the elementary and high school. This will be a major focus to the new school year.

The district has completed a Maintenance and Operation review this past school year along with a Strategic Plan. The information generated from these evaluations will help us academically as well as improving the facilities and community relations during the upcoming school year.

We are continuing to improve our services to our Minority population with some very positive results. We will continue to update these services along with minor changes to make these programs more successful.

Progress Towards Meeting District Goals

2001-02 Goals

Progress

Form leadership teams to establish curriculum that meets required educational standards

Curriculum team leaders are being assigned to analyze curriculum to assure educational standards are being met in each grade level

Align curriculum to standards and create benchmarks for core curriculum in each grade level

A computer program has been purchased that aligns the district curriculum to state standards. Through the use of this program benchmarks will be identified for each grade level

Collect and analyze data to determine current status and set learning objectives

Curriculum team leaders and administrators are analyzing current data to determine our status and are setting learning objectives for each grade level

Implement grade level teaming

2 hours per week is set aside for teachers in grades k-12 to meet as grade level teams. 2 hours each month is set aside for high school teachers to meet as teams

Verify instructional alignment with classroom instruction

Every teacher will be provided the state standards and a copy of how our district curriculum meets those standards. Classroom lesson plans will be developed to meet the state standards in all core subject areas and benchmarks will be set as to when that subject matter will be taught.

Utilize technology to enhance learning and store student data

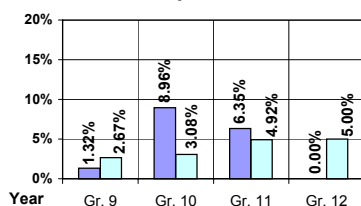

We have numerous ways of storing student data. Currently we are using the MAPS test to identify student progress, and Teach Master to align curriculum and store student data.

Student Profiles

Ethnicity

Race	Male	Female	Total
White	30.41%	30.30%	60.71%
Black	0.00%	0.00%	0.00%
